

PRODUCT CATALOGUE

www.semix.cz/en

SEMIX was founded in 1995 to facilitate the work of local bakers and confectioners. Since that time we have developed a large range of pre-mixes, improvers and fillings that help our customers to save money and time and diversify their assortment. Since 1997 alongside **products for bakeries, confectioneries and dairies** we have been producing **sweet and savoury muesli, snacks, sprouted products, porridges and mixes for catering; process grain, poppy seeds and flax seeds.**

SEMIX has its own development department where food specialists for several target market sector work. All our recipes and manufacturing procedures are the work of our own employees. Their work requires above-average creativity, imagination, consistency and a general and special overview across the food industry. Continuous training, understanding of teamwork and business management support are common in our company.

SEMIX has been operating on European markets for more than 25 years. We have branches in Hungary, Poland and Slovakia. We export to 28 countries of the world. The appearance of Semix today is 190 satisfied employees and a turnover of more than 20 million EUR.

In general, **SEMIX** emphasises the preservation of the nutrients and minerals in grains while processing. We are a proactive manufacturer, we offer food with an idea, with a trend, and we can meet the requirements of customers for special products all around the world. You can buy our products in Japanese, Korean, Israel or European supermarkets.

We appreciate nature's gifts, and we take care of them with humility.

Caring for nature

We have long been active in protecting nature and the environment. We own 68 hectares of land in five locations in Moravia. In the biotopes we restore the basic landscape functions and support the endangered and protected species of organisms – birds, amphibians, invertebrates and fish. We actively protect nature and try to keep it healthy, preserving it for present and future generations. We hope that our business philosophy will inspire other companies and individuals.

We do not use palm oil

In the spring of 2016, we stopped using palm oil in our cereal products because we are not only a caring customer but also an environmentally responsible company. We were the first Czech food producer to become a member and then the general partner of the Coalition against Palm Oil. We adopted a serious approach to the consequences of setting up new palm plantations at the expense of rain forests. Although we were taking palm oil from the original plantations under the RSPO programme, we decided to replace it with coconut and olive oil and, eventually, sunflower oil. The sunflower is a European crop that is grown in our country, so it is a more natural alternative and one that is commonly used in the food industry. However, if the customer requires the use of palm oil because of the requirements of the product's properties, we select palm oil from plantations where we know that they grow and obtain it in a considerate way.

AWARDS

2020

- **Special Award for Best Innovative New Food Product 2020** – was awarded by the President of the Food Chamber of the Czech Republic – Muesli sticks and Sprouted crunchy red lentil flakes

Healthy life without sugar

- SEMIX produces many cereals without added sugar
- These products are suitable for people suffering from diabetes
- They are also suitable for followers of a healthy lifestyle
- No other sugar has been used in the recipe for sweetening
- The small amount of sugar they still contain has its origin in the natural ingredients used

Why do we add flax to our porridges?

Oat porridges with flaxseed are high in fibre and contain beta-glucans, which assists in maintaining balanced levels of cholesterol in the blood. Flaxseed can be labelled as a "superfood" without exaggeration. It is an original Czech crop and contains unsaturated fatty acids Omega 3, called "healthy fats". Of this group, linolenic acid is the most represented in flax. Omega 3 fatty acids are very important for the proper metabolism of substances in the body and have a number of health benefits. Flaxseed must be thoroughly chewed so that all the important substances contained in the flax are released in the body.

OAT PORRIDGE

with flaxseed, chocolate & cashew nuts

INGREDIENTS: Oat* flakes (gluten-free) 65 %, sugar, cashew nuts 6,9 %, chocolate 6,8 % (sugar, cocoa mass, cocoa butter, emulsifier: soy lecithin), dried whey, dried skimmed milk, flaxseed 2,4 %, fat reduced co-coa powder, aroma, sea salt. *Content of gluten <20 mg/kg.

IMPORTANT FUNCTION OF CALCIUM

The adult calcium reference value is 800 mg / day. Calcium in take in all age groups is essential for the following functions:

- Calcium contributes to normal blood clotting, normal energy metabolism, normal muscle activity, normal nerve transmission, normal digestive enzyme function
- Calcium participates in the process of cell division and specialization
- Calcium is needed to maintain normal bones and teeth

Our porridges are at least a source of calcium, one serving of fruit porridge contains 246.5 mg of calcium, porridge with chocolate and banana 131.5 mg. Porridge can be included in the diet of children from three years of age.

OAT PORRIDGE

with fruits & calcium

INGREDIENTS: Oat* flakes (gluten-free) 68 %, cane sugar, dried yoghurt, dried semi-skimmed milk, freeze-dried fruits 1,7 % (raspberries, blueberries, strawberries), black currant powder 0,9 % (black currant 50 %, maltodextrin), minerals (calcium carbonate 0,7 %), sea salt, beet-root juice concentrate, natural aroma. *Content of gluten < 20 mg/kg.

CHIA PORRIDGES – – NOT JUST GREAT TASTE

- SEMIX chia porridges contains up to 10% of chia seeds
- They are a source of alpha-linolenic acid (from omega-3 fatty acids) which helps to maintain normal blood cholesterol levels. This positive effect may be achieved by consuming 2 g of this acid per day.
- Chia seeds can bind a large amount of water to each other
- Chia porridge brings satiety - thanks to their hydrophilic properties, the volume of chia seeds increases several times
- They slow down the process of digestive enzymes
- They represent a steady intake of healthy energy
- The antioxidants contained in chia seeds provide anti-inflammatory effects

CHIA PORRIDGE with blueberries & whey

INGREDIENTS: Oat flakes 61 %, dried **whey** 12 %, chia seeds (*Salvia hispanica*) 10 %, sugar, dried skimmed **milk**, cane sugar, freeze-dried blueberries 1 %, black currant powder (black currant 50 %, maltodextrin), sea salt, aroma.

OAT MUG CAKE

Gluten-free oat mug cake is an easy, quick and delicious oat cake ready in three minutes. We produce the oat mug cake in three flavors: with apples and cinnamon, with chocolate and in gingerbread flavor.

BENEFITS:

35 - 50 % oatmeals, no flour • Gluten-free (gluten-free oats) • Without palm oil • Easy to make, quick to bake using a microwave oven (3 minutes) • High in fibre • Contains oat beta-glucans • Consumed either warm or cold • Delicious as a snack, for breakfast, and as a healthy cake - or - "dessert" • Can be prepared as a snack in advance for a trip, school or work • You can serve it with fresh fruit, yoghurt, cream, ice cream, honey or syrup • Can be sprinkled with nuts, seeds, grated chocolate ...

Instruction for use: Simply empty the sachet into a bigger mug (250 ml), add 90-100 ml of cold water or milk (that's 9 tablespoons) and stir well. Leave it for 3-5 minutes, then microwave on 700 W for 3-4 minutes (depending on the type of microwave). You can serve straight from the mug or flip it out onto a plate. Serve with your favourite syrup or honey, fresh fruit, sour cream, nuts, etc.

OAT MUG CAKE with apple, cinnamon and dried sprouted quinoa flakes

INGREDIENTS: Oat* flakes (gluten-free) 35 %, dried sprouted red quinoa crunchy flakes 20 %, sugar, milled flaxseed, dried eggs, dried apples 5 %, olive oil, raising agents (monopotassium tartare, sodium bicarbonate), corn starch, dietary fibre, sea salt, milled cinnamon 0,4 %, thickener (hydroxypropyl methylcellulose), flavour. *Content of gluten < 20 mg/kg.

GRAIN LOAF

BENEFITS:

- Unique bread with no flour, no yeast and no additives
- Seed-rich (pumpkin, sunflower, flax, sesame and oatflakes)
- It feeds and charges energy
- Unusual flavour thanks to added honey
- If the correct technological procedure is followed, the bread will not break and will last for several days
- Source of fibre and protein
- The lentil blend has a unique formula – 19% lentils in the mixture, 8% lentils in the baked bread
- We produce 4 types of grain loaf:
 - grain loaf
 - grain loaf gluten free
 - grain loaf with sprouted lentil
 - grain loaf with sprouted lentil gluten free

GRAIN LOAF

INGREDIENTS: Oat and wheat flakes, sunflower, flaxseed, soy flakes, pumpkin seeds, puffed wheat grains, vegetable fibre, sesame.

CARTON 10 pcs

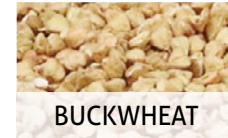

BENEFITS:

- INCREASE IN NUTRITIONAL VALUE
- HIGHER CONCENTRATION OF VALUABLE NUTRIENTS - including important substances - protein (lentils, beans), fibre (bean, buckwheat), antioxidants (oats).
- HIGHER DIGESTIBLE - The activity of enzymes helps to change starch to smaller and simpler substances, which are more easily digestible.
- DELICIOUS TASTE - the products are fine, the grains are crispy and easy to chew. The products get a slightly malty taste without the bitter tones and flavours typical of raw grain.
- IMMEDIATE CONSUMPTION - no further heat treatment is necessary, as our technological treatment allows the product to be consumed directly.

PRIVATE LABELS, PACKAGING

We have built up years of experience - in private label breakfast cereals and B2B solutions for the food industry. We support you in bringing your own brands or products to market. We can collaboratively develop and produce innovations with you that are well-developed, attractively priced and of high quality.

Supported by dynamic process management, we translate your ideas into innovative, commercial products. Our product developers are guided by your specifications. You will benefit from our high quality standards and our pronounced innovative strength.

RETAIL solutions - granola, muesli, flakes, muesli snacks, porridges, protein drinks, sprouted grain

B2B solutions - naturally, you expect efficiency, quality and flexibility. We can offer you the latest production technology, extensive experience in product research & development and outstanding service. Your brand is our concern. A trustworthy partnership is our ultimate goal.

TOP QUALITY. Always. At Semix we strive for only the very best. With state-of-the art machinery, the finest ingredients, competent and satisfied employees, high-level certificates and a premium service.

PACKAGING

We can deliver our products in different types of packaging according to the customer's requirements.

- Retail packaging – stand-up pouch, pack, cup
- Standard packaging – bag (material: PE + blue HDPE liner)
- Bulk packaging according to your requirements.
- Product packaging has an impact on product durability.
